REMARKS.

FELLOW CITIZENS:—Again it becomes our duty and pleasure to submit to you the annual report of our schools for the year ending Feb. 15, 1895.

For the most part our schools have been favored with good teachers, and honest work has been accomplished.

In our opinion it is a great mistake in not having longer terms of schools. Twenty-five weeks is altogether too short a school year.

Eight years is considered sufficient time to prepare for the high school in towns and cities where ten and twelve weeks per term are supported.

Shall our children take ten years for preparatory work because we cannot, or will not, give them thirty or thirty-six weeks in the year? or shall we continue by trying to crowd twelve weeks' work into eight or nine, and as a result have the satisfaction of knowing that we have SKIMMED over the ground, putting the motto that "What is worth doing at all is worth doing well" wholly out of existence?

We can afford many luxuries, electric lights, water, etc., etc., which is all right, and as it should be,—but why stop when it comes to the subject of the education of our children?

In order to secure good and trained teachers we have got to pay them well. This class of teachers are in great demand, and they are going where they can get the greatest pay; and who blames them?

We expect, or ought to expect, our teachers to take at least one educational periodical, attend Teachers' Institutes, visit schools, and, in fact, keep apace with all that pertains to improvements in the interests of our schools. How much of this ought we to demand of our teachers when we pay them only five and six dollars a week?

We have heretofore been troubled about finding teachers of reputation and experience for our High School for the price we could pay. This year (perhaps owing to the hard times), we have been fortunate in both these particulars. With the full course of three distinct classes and the amount of work laid out for each year, both teacher and scholar have all that they can attend to. Vigorous work is being done, with much study outside of the school room. And we think this High School compares favorably with any in the State. We have put in some chemical apparatus for the chemistry class, and hope additions will be made from time to time as they are needed. Apparatus should also be procured for the natural philosophy class. A separate room for a laboratory would be a great convenience. The school has purchased The International Encyclopædia, and other books of reference. We shall graduate the first class from this High School next June. We hope, however, that others will come in, so that the ranks will not be thinned. More have come in this year from the out districts than heretofore.

By way of repairs and improvements, we have sheathed and painted the entries to the school house, painted the lower hall and the primary and intermediate rooms in Division 1, and put in Blackboards in Divisions 1, 3, 4 and 7. We have also painted (outside) the school house in Div. 2 two coats. Have levelled across and plastered both rooms overhead in Div. 2, thus prevent-

ing the escape of the heat through the top of the rooms. Have shingled the house in Div. 3. The one in Div. 6 needs to be shingled and the one in Div. 4 to be painted. We have also put the precinct water into the school house in Div. 1, running a drain tile back in the same ditch and connecting it with the street drain. In doing this job we encountered some large rocks, consequently we exceeded our appropriation by some thirteen dollars, as accounts will show ; while in some of the other matters we did not use quite all that was provided. We had the walls whitened in Divs. 2, 3, 4, 6 and 7. In Div. 3 plastering had to be patched. In consequence of these repairs the expense for cleaning school houses has been somewhat larger than usual. Some cupboards, recitation seats and other minor repairs have also been made.

In endeavoring to give all the schooling (which was too short at best) we could, we have run over our appropriations, as accounts will show.

In consequence of the winter terms being so short, the teachers in Div. 2, 3 and 4 kindly gave their services one week, which gave these schools a week more than the others had.

No prevailing sickness has marred our prosperity, and as a whole the attendance has been quite regular.

Parents and citizens have shown quite an interest in our schools by frequent visits.

The unexpended balance for the High School is for the next term, our school year beginning with the fall term. We have itemized our accounts at some length, as per vote at the school meeting.

All of which is faithfully submitted.

D. W. COOLEY,	} School Board

GEO. A. COCHRAN,		

Antrim, N. H., Feb. 15, 1895.

Report of Overseer of Poor.

Paid Milton Tenney for keeping tramps to March	
16, 1894,	\$20 50
Harrington & Kibbey, for crackers and cheese,	3 42
Milton Tenney, food for tramps,	6 00
Putney & Little, goods for Mrs. A. J. Curtis,	16 02
	<hr/>
	\$45 94

In the report of last year there was \$63.50 reported due the town from Hillsborough County. This was a bill for keeping tramps. The County Commissioners refuse to pay any such bills.

About the first of May a room was finished in the basement of the Town hall to accommodate tramps and other disorderly persons, and since that time we have furnished food and lodging for sixty-three tramps.

The town has only one person on the poor list. Mrs. Andrew J. Curtis applied for help last November, and she is boarded at C. W. Osborn's in Hancock, N. H., at an expense of one dollar a week to the Town.

CHARLES W. KELSEA,
Overseer of Poor.

Antrim, N. H., Feb. 15, 1895.
